AUDIT TYPE:

Announced Audit

AUDIT EXECUTIVE SUMMARY:

The packaging unit receives Chile from different producers, the fruit is placed in plastic racks, the product passes through washing equipment, followed by the product passing through a series of belts where it is manually selected and packed to be stored in the cooling chamber. The packaging has sufficient infrastructure to carry out the processes, drinking water of municipal origin is used, there are sanitary facilities and sinks with sufficient supplies. Operation personnel comply with work clothing and good management practices as established by the company. There is a food consumption area and an area for changing staff clothes. There is an external integrated pest management system with gummed paper stations and light traps for flying insects inside and bait stations outside.

Addendum(s) included in the audit:

Not Applicable
